**Applied Computer Science, Engineer**  
PWSZ (Akademia Nauk Stosowanych), Nowy Sącz  
2018 - 2022

## LANGUAGES

Polish - Native  
English - B2

## HOBBY / INTEREST

Travel | Gaming | Web Design | Technology  
Aircraft | Photography | Football

I implement responsive and user-friendly interfaces and API-based applications. I'm constantly gaining new knowledge by creating and improving projects which help me practice my skills. My goal is work in a team that specializes in commercial projects. This would give me a chance to further improve my skills and gain valuable experience.

## PROJECTS

### **Portfolio** [source](#) / [preview](#) / [details](#)

**Stack:** JavaScript, TypeScript, React.js, Next.js, Sanity CMS

*My portfolio website. A responsive website built with Next.js and the Sanity v3 CMS embedded Studio.*

### **Tastebite Recipes App** [source](#) / [preview](#) / [details](#)

**Stack:** JavaScript, TypeScript, React.js, Tailwind, Firebase

*React app with the ability to create accounts and manage custom recipes (CRUD). Auth and database from Google Firebase. Data fetching, form validation, and sanitization.*

### **Apple E-Commerce Store** [source](#) / [preview](#) / [details](#)

**Stack:** JavaScript, TypeScript, React.js, SASS, Strapi CMS, Stripe

*Modern Apple Store built with React, TypeScript, Stripe payments, and Strapi backend for stored data. Styling with SASS.*

### **Hangman** [source](#) / [preview](#) / [details](#)

**Stack:** JavaScript, TypeScript, React.js, Styled-Components

*The game where you have to guess all the letters of a word. Created with React and TypeScript.*

### **Memory Master** [source](#) / [preview](#) / [details](#)

**Stack:** JavaScript, TypeScript, SASS

*The game where you have to match all the images to win. Created with TypeScript and DOM manipulation.*
